I hereby acknowledge that the information, data and scripts contained in the OPGP Server System and all other related servers and systems owned or developed by Malaysian Palm Oil Board (MPOB) are highly confidential and the sole property of MPOB. The information and systems in the OPGP Server Systems were developed for the Oil Palm Genome Programme and other related research projects in MPOB. The servers' IP addresses, login IDs and passwords are also confidential information. I agree that the usage of the data is strictly for MPOB's research staff working on MPOB's approved projects and will not share the data with researchers outside MPOB unless with prior approval from MPOB's top management. I also agree to protect the confidentiality of the information in the servers and use best practices when accessing the servers to avoid disclosure or unauthorized use of the data, servers, software or documentation files.
